

# Preen®

**COMMERCIAL**

**WEED CONTROL  
FABRIC**

- Chemical-free weed control.
- Recommended for use in areas landscaped with trees, shrubs and perennials.
- Use under decks and pathways and beneath brick or stone patios.
- Reduces need for hand weeding.
- Conserves soil moisture.

## 25 Year Guarantee

# EASY-TO-INSTALL INSTRUCTIONS

1. Remove weeds and grasses from planting area.

2. Unroll Weed Fabric. Be sure adjacent sections overlap 2" to 3".

3. With new plantings, install Weed Fabric first, then cut x's in fabric for plant placement.

- If existing plants are taller than 3 feet, cut Weed Fabric to the edge and slide around base of plant.

- If smaller plants are present, lay Weed Fabric on top of plants and cut an x or circle over each plant and gently push fabric over the top, down to the soil.

4. Anchor edges and seams with Fabric Pins. Apply 2" to 3" of mulch or stone, deep enough to cover fabric. (Fabric will not withstand UV rays alone and must be covered to prevent degradation.)

## Preen Works, So You Don't Have To.®

Preen Commercial Weed Control Fabric is a foundation for an effective weed control program. Landscape fabric is not a complete, long-term weed control solution by itself. The Preen program offers a range of fabrics to optimize weed control in target areas. Preen Landscape Weed Control Fabric eliminates weeds for years. It is strong and durable yet flexible enough to easily cut and install.

**Weed Fabric: An Important Part Of Effective Weed Control.** In order for weeds to grow, seeds must have contact with soil, as well as exposure to sun, air and water. Preen Fabric interferes with this process by eliminating the contact seeds have to soil and sunlight. Because the fabric is porous, water and air can pass through it, providing the nutrients necessary for existing plants. However, when mulch is applied over the weed fabric, seeds enjoy a fertile environment that allows shallow rooted weeds to sprout. Annual use of Preen Garden Weed Preventer or Preen Vegetable Garden Weed Preventer in mulched beds or vegetable gardens prevents weeds from sprouting.

### 25-YEAR GUARANTEE

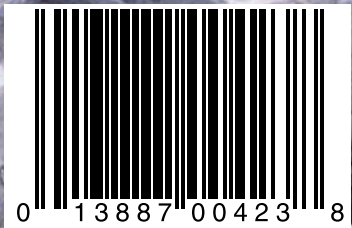

#### Seeds Under Fabric Will Not Germinate

**Full Refund Warranty:** Lebanon Seaboard Corporation guarantees you will be satisfied with the performance of this product when used as directed, or your money back. If not satisfied, describe the nature of your problem, and send with proof of purchase to Lebanon Seaboard Corporation, 1600 E. Cumberland Street, Lebanon, PA 17042.

The manufacturer makes no warranties, expressed or implied, concerning this product or its use, which extend beyond the description of the face hereof. All statements made concerning this product apply only when used as directed.
