# WEED CONTROL FABRIC

SUPERIOR STRENGTH  
**20**  
Twenty Year Guarantee

Blocks Weeds Around:  
**Flower Beds, Trees,  
Shrubs, Decks & Patios**  
Allows Water & Nutrients to Flow Back to Plants

### Easy To Install

**Step 1:** Remove weeds and grasses from planting area. Rake smooth.

**Step 2:** Roll out fabric to cover soil, overlapping sections by 2" to 3".

**Step 3:** Install around plants by cutting x's in fabric.

**Step 4:** Anchor edges with fabric pins and cover with 2" to 3" of mulch or stone.

### For Improved Results

To extend the life of this product and prevent UV light damage, cover fabric with at least 3" of mulch. Weed seeds may be present in newly added soils, freshly tilled areas and in bark mulch. Treat these situations with **Preen Weed Preventer** every three months to continually prevent weed seeds from germinating.

**20 Year Guarantee: Seeds Under Fabric Will Not Germinate.** No landscape fabric is totally effective against quackgrass, yellow-nut sage and plants with rhizomatous growth habits. If the odd weed does appear, treatment with an environmentally safe systemic herbicide is recommended.

**Full Refund Warranty:** Lebanon Seaboard Corporation guarantees you will be satisfied with the performance of this product when used as directed, or your money back. If not satisfied, describe the nature of your problem, and send with proof of purchase to Lebanon Seaboard Corporation, 1600 E. Cumberland Street, Lebanon, PA 17042.

**Note:** To the extent consistent with applicable law, Buyer assumes responsibility for safety and performance if this product is not used according to the directions.
